REPORT OF ANIMALS USED BY OR UNDER CONTROL OF RESEARCH FACILITY Column Definitions

Column Definition

- A Animals Covered By The Animal Welfare Regulations
- B Number of animals being bred, conditioned, or held for use in teaching, testing, experiments, research, or surgery but not yet used for such purposes
- C Number of animals upon which teaching, research, experiments, or tests were conducted involving no pain, distress, or use of pain-relieving drugs.

(APHIS)

FY2008 APHIS Form 7023 Column E Explanation

This form is intended as an aid to completing the APHIS Form 7023 Column E explanation. It is not an official form and its use is voluntary. Names, addresses, protocols, veterinary care programs, and the like, are not required as part of an explanation. A Column E explanation must be written so as to be understood by lay persons as well as scientists.

1. Registration Number: 35-R-0001 / 616
2. Species (common name) of animals used in the study: Sheep
(check all that apply for this explanation)
3. Number of animals used in this study: (Generated By System)
4. Explain the procedure producing pain and/or distress.
Utilizing a hyperbaric chamber sheep are exposed to conditions that are experienced by deep water recreational/commercial divers or submariners forced to evacuate their disabled submarine. The study looks at decompression sickness (bends).
5. Provide scientific justification why pain and/or distress could not be relieved. State methods or means used to determine that pain and/or distress relief would interfere with test results. (For Federally mandated testing, see Item 6 below)
Two sheep were retrospectively placed in Category E after a review of their records. While the intent of the protocol is not to withhold pain management, the sheep died before pain relief could be administered. This is a potential consequence of the experimental manipulation.
6. What, if any, federal regulations require this procedure? Cite the agency, the code of Federal Regulations (CFR) title number and the specific section number (e.g., APHIS, 9 CFR 113.102):

DEC 30 2008

**IACUC APPROVED EXCEPTIONS TO THE STANDARDS AND
REGULATIONS OF THE USDA ANIMAL WELFARE ACT**

Registration Number: 35-R-0001

Reporting Period: 10/01/07 – 09/30/08

Justification for Withholding Feed and/or Water:

- IACUC approved protocol for 18 sheep – withholding of food for a maximum of 24 hours while animals are in hyperbaric chamber.

Justification for and Extent of Cleaning/Sanitizing Exemptions:

- IACUC approved protocols for 66 rhesus macaques and 9 cynomolgus macaques – exempted from cage cleaning for 72 hours following MPTP administration. During this reporting period, no animals were used on these protocols.
- IACUC approved protocols for 134 13-lined ground squirrels – exempted from cleaning during hibernation.

Cage Size Exemption:

- IACUC approved protocol for up to 304 rhesus macaques – exempted from cage size requirement when a breeding pair is housed in a single 6.0 sq. ft. cage for up to 14 days. During this reporting period, 198 animals were paired for breeding.

APHIS Form 7023 Additional Reported Sites

The following additional sites have been reported by the facility. The reported sites have not been verified by APHIS and have been provided by the facility solely for completeness of the APHIS Form 7023 Annual Reporting submission.
